

Curriculum vitæ

January 1, 2018

Antoine Ducros.

Date of birth : 03/11/1972 in Avignon (France). French citizenship.

Full professor at Sorbonne Université (formerly Université Paris 6).

The french precise title is *Professeur des Universités de classe exceptionnelle*.

Former Junior member of the *Institut universitaire de France* (October 2012- September 2017).

1 Education and employment

- September 2016: I was promoted *Professeur de classe exceptionnelle*.
- April 19 -July 18, 2015: stay at Weizmann Institute in Rehovot (Israel) as an invited professor (I have been invited by Vladimir Berkovich).
- January, 20th - May, 23rd, 2014: research member at MSRI (Berkeley, California) for the semester *Model Theory, Arithmetic Geometry and Number Theory*.
- October 1st, 2012: I became a junior member of the *Institut universitaire de France* (it means that I have a reduced teaching duty for 5 years).
- September 1st, 2012: I became first-class full professor (*Professeur de première classe* in french).
- First semester 2010-2011: teaching-free semester.
- September 2009: full professor position at the university Paris 6, where I joined the scientific team *Topologie et géométrie algébriques* at the *Institut de mathématiques de Jussieu*.
- January 15, 2009 - march 14, 2009: invited professor at the Weizmann Institute, in Rehovot.
- Second semester 2007-2008: teaching-free semester; I was invited in the Academia Sinica (Taipei, Taiwan) between April, 20 and May, 3.
- September 2006: full professor position at the Laboratoire Dieudonné (university of Nice) ; I joined the scientific team *Géométrie algébrique*.

- December 2005 : defense of my habilitation's thesis in Rennes ; the title was *Conséquences algébriques de certaines propriétés transcendantes des variétés réelles et p -adiques*. Composition of the commission: Yves André, Antoine Chambert-Loir, Jean-Louis Colliot-Thélène, Michel Coste, Michel Raynaud and Alexe Skorobogatov ; the scientific reports were written by Yves André, Vladimir Berkovich and Claus Scheiderer.
- Second semester 2003-2004: teaching-free semester ; I was invited for one month (in may) at Weizmann institute in Rehovot.
- September 1998: assistant professor position at the IRMAR (University of Rennes 1); I joined the scientific team *Géométrie algébrique réelle, calcul formel et complexité*.
- September 1997-june 1998: military service as a mathematics teacher at the *Prytanée Nationale Militaire* (a military high school) in La Flèche; I gave lectures to high school students and to officers.
- June 1997: defense of my Ph. D's thesis at the Université Paris-Sud (Orsay); the adviser was Jean-Louis Colliot-Thélène ; its title was *Principe local-global sur le corps des fonctions d'une courbe réelle : espaces principaux homogènes et surfaces rationnelles*; composition of the commission : Jean-Louis Colliot-Thélène, Jean-Jacques Sansuc, Laurent Clozel, Michel Coste, Louis Mahé and Michel Raynaud; the scientific reports were written by Michel Coste and Claus Scheiderer.
- November 1993-june 1997: Ph. D's thesis at the Université Paris-Sud, first of all as a student at the École normale supérieure (till september 1995), then with a grant of the french government (with 4 hours teaching a week during one semester every year).
- July 1993: *agrégation de mathématiques* (special exam to be high school teacher) ; rank : 2.
- July 1991: I passed the exam to enter the École normale supérieure in Paris; rank : 15.

2 Invitations abroad

- I have attended the semester *Model Theory, Arithmetic Geometry and Number Theory* at the MSRI, from January, 19th till May, 24rd 2014 (support: *Research membership* of the MSRI, and IUF).
- I have been invited three times at Weizmann Institute (Rehovot, Israel): one month in 2004, two months in 2009, three months in 2015 (in 2009 and 2015 I benefited from a Rosi and Max Varon Professorship).
- In May 2013 I have been invited invited for two weeks by the *Laboratoire Poncelet* of the CNRS in Moscow.
- In April 2008 I have been invited for two weeks at Academia Sinica (Taipei, Taiwan).

3 Participation to scientific projects

- I am a member of the ANR project (ANR is the *Agence nationale de la recherche*) DEFIGEO (*Dfinissabilit en gomtrie non archimdienne*), 2015-2019.
- I am a member of the ANR project VALCOMO (*Valuations, combina-toires, et thorie des modles*), 2014-2017.
- I was the leader of the project BERKO (*Espaces de Berkovich*), 2007-2012.

4 Scientific responsibilities

- I'm a member of the editorial board of *Mathematische Zeitschrift* since the first of July 2013.
- Since the first of september 2012, I'm a member of the so-called *Comité national de la recherche scientifique*, for the next four years. This committee is in charge of hiring and promoting people for the french CNRS (which offers teaching-free permanent research positions).
- I've been deputy-director (september 2010 - january 2012) and director (january 2012- november 2013) of the scientific team *Topologie et géométrie algébriques* of the *Institut de mathématiques de Jussieu*.
- I've been in charge of the colloquium of the *Institut de mathématiques de Jussieu* from september 2010 till september 2012.
- I have been a member (2010-2014) of the committee of the french mathematical society which supervises the organization of the so-called *tats de la recherche*.

I regularly participate to hiring committees of french universities.

5 PhD students, PhD defenses committees

- Students.
 - ◊ Sylvain Gaulhiac (second year of his PhD).
 - ◊ Marc Chapuis: he defended his PhD at Paris 6 in December 2017.
 - ◊ Thibaut Lemanissier: he defended his PhD at Paris 6 in December 2015.
 - ◊ Florent Martin (with Jean-Francois Dat as co-adviser): he defended his PhD thesis at Paris 6 in October 2013.
 - ◊ Jrme Poineau (with Antoine Chambert-Loir as co-adviser) : he defended his PhD at Rennes in November 2007.
- PhD defense committee (apart those of my own students).
 - ◊ Arthur Forey (adviser F. Loeser, defense at Paris 6 in December 2017).

- ◇ Mattia Galeotti (adviser A. Chiodo, defense at Paris 6 in November 2017).
 - ◇ Quang Hoa Tran (adviser M. Chardin, defense at Paris 6 in November 2017).
 - ◇ A. Jaramillo (adviser I. Itenberg, defense at Paris 6 in September 2017).
 - ◇ L. Heuberger (adviser A. Hring, defenses at paris 6 in June 2016).
 - ◇ Velibor Bojkovic (advisers F. Baldassarri and D. Benois, defense in Padova in october 2015). *I wrote a report.*
 - ◇ Daniele Turchetti (adviser A. Mzard, defense in Versailles in October 2014).
 - ◇ Lorenzo Fantini (adviser J. Nicaise, defense in Leuven in October 2014).
 - ◇ Bertrand Duma (adviser D. Rssler, defense at Paris 7 in September 2012).
 - ◇ Charles de Clercq (adviser N. Karpenko, defense at Paris 6 in November 2011).
 - ◇ Benjamin Colas (adviser P. Lochak, defense at Paris 6 in September 2011).
 - ◇ Olivier Haution (adviser N. Karpenko, defense at Paris 6 in December 2009).
 - ◇ Fares Maalouf (adviser F. Delon, defenses at Paris 7 in December 2008).
 - ◇ Amaury Thuillier (adviser A. Chambert-Loir, defense in Rennes in October 2005).
- PhD reports without participation to the defense committee.
 - Michael Temkin (Hebrew University of Jrusalem, 2006).
 - Adina Cohen (Hebrew University of Jerusalem, 2016).
 - Participation to habilitation defense committees.
 - ◇ Jrme Poineau (Strasbourg, 24/10/2013).
 - ◇ Matthieu Romagny (Paris 6, 18/11/11).
 - ◇ Samuel Boissire (Nice, 11/10/2010).
 - ◇ Johannes Nicaise (Lille, le 02/12/08 Lille). *I also wrote a report.*

6 Course notes

- Affine geometry for 3rd year students, 65 pages:
<http://webusers.imj-prg.fr/~antoine.ducros/Coursgeoaff.pdf>
- Permutation and isometry groups for 2nd year students, 53 pages:
<http://webusers.imj-prg.fr/~antoine.ducros/Polygroupes.pdf>

- Finite groups and representations for 4th year students, 113 pages:
<http://webusers.imj-prg.fr/~antoine.ducros/GroupRep.pdf>
- Slightly extended version of an introductory course in scheme theory, 310 pages:
<http://webusers.imj-prg.fr/~antoine.ducros//Cours-schemas.pdf>

7 Organisation of conferences

- July 2018: I organize with J. Poineau (Caen) and M. Temkin (Jerusalem) a conference at IHP (Paris) whose title is *Berkovich spaces: 30 years*.
- June 2012: I organized with Antoine Chambert-Loir the conference *Pinceaux, formules et champs* for Laurent Moret-Bailly's 60th birthday.
- June 2012: I organized with Charles Favre a workshop on non-Archimedean analysis in Paris 6.
- June 2011: I organized with Charles Favre a workshop on non-Archimedean dynamics in Bordeaux.
- July 2010: I organized with Charles Favre the summer school of our ANR project.
- April 2007: I organized in Nice a workshop on the applications of Berkovich's geometry.

8 Editorial boards

Since July 2013 I am a member of the editorial board of *Math. Zeitschrift*.

9 Seminars, workshops, conferences... (since 2005)

• Seminar talks

- ◊ In France: seminar or colloquium talks in Paris, Lyon, Grenoble, Strasbourg, Chambry, Caen, Lille, Universit de Rennes 1, ENS-Rennes.
- ◊ Seminar talks abroad during long stays.
 - * 2016 : seminar talk at *Tokyo institute of technology*.
 - * 2015 : seminar talk at Weizmann Insitute, seminar and colloquium talk at Beer-Sheva University.
 - * 2014 : seminar talk at MSRI, and at U-Michigan (Ann Arbor).
 - * 2013 : seminar and colloquium talk at the Hebrew university in Jrusalem; seminar talk at Weizmann Institute; mini-courses and talks at Institut Poncelet (CNRS) in Moscow.
 - * 2009 : seminar talk at Weizmann Institute.
 - * 2008 : talks at Academia Sinica (Taipei) ; seminar talk at National Central University of Tawan.

- **Participation to conferences**

- ◇ April 2018 : *Workshop on tropical varieties and amoebas in higher dimension* in Stockholm (this activity is part of the tropical semester at Mittag-Leffler institute).
- ◇ December 2017 : mini-workshop in Florence for the 70th birthday of Jean-Louis Colliot-Thlne.
- ◇ May 2017 : *Simons Symposium* in Schloß-Elmau (Germany), on *Nonarchimedean and tropical geometry*.
- ◇ March 2017 : Workshop *P-adic Analytic Geometry and Differential Equations* at CIRM (Marseille).

- **Talks in conferences, workshops...**

- ◇ May 2018: conference for Francois Loeser's 60th birthday in Banyuls sur mer (France).
- ◇ January 2018: I will give a mini-course at the CIRM during the *Research School Model Theory, Combinatorics and Valued Fields*.
- ◇ July 2017: *Berkovich spaces, tropical geometry and model theory* in Bogota.
- ◇ June 2017: *Non-archimedean geometry, motives and vanishing cycles*, Mittag-Leffler institute.
- ◇ December 2016: *The 10th Conference on Arithmetic and Algebraic Geometry*, Tokyo University.
- ◇ July 2016: *Regensburg days on non-archimedean geometry*.
- ◇ March 2016: *Tropical Geometry and Related Topics*, Kyoto.
- ◇ December 2015: *Non-Archimedean geometry and applications*, Oberwolfach.
- ◇ August 2015: *Non-archimedean analytic geometry: theory and practice*, Papeete (Tahiti).
- ◇ End of june-beginning of July 2015: mini-course in a summer school at BICMR, Beijing.
- ◇ February 2015: Simons Symposium *Non-Archimedean and Tropical Geometry* in Porto-Rico.
- ◇ November 2014: *Valuation theory and its applications*, Oberwolfach.
- ◇ September 2014: first conference of the research project *Higher invariants*, Regensburg,
- ◇ October 2013: *Regensburg days on non-Archimedean geometry*.
- ◇ April 2013 : Simons Symposium *Non-Archimedean and Tropical Geometry* in St John (American Virgin Islands).
- ◇ Janvier 2013 : *Trends in Arithmetic geometry*, Leiden.
- ◇ November 2012 : *Non-Archimedean Analytic Geometry*, Oberwolfach.
- ◇ June 2012 : *Interactions of Model Theory with Number Theory and Algebraic Geometry*, Bonn.

- ◇ June 2012: *Analyse non archimédienne*, Jussieu.
- ◇ June 2012 : Bourbaki seminar on Hrushovski-Loeser's work about the homotopy type of Berkovich spaces.
- ◇ July 2011 : mini-course during the Second International conference on valuation theory in Segovia and El Escorial.
- ◇ May 2011 : *Tropical and Non-Archimedean Geometry*, Barbados.
- ◇ July 2010 : mini-course in the summer school on Berkovich spaces, Jussieu.
- ◇ September 2009 : *P-adic analysis and applications*, Trieste.
- ◇ January 2009: annual conference in complex algebraic geometry, Luminy.
- ◇ May 2008: *Motivic Integration and its Interactions with Model Theory and Non-Archimedean Geometry*, dimbourg.
- ◇ February 2008: *Arithmetic applications of p-adic analysis and rigid spaces*, Regensburg.
- ◇ January 21-st February 1st 2008: mini-course in the winter school *Ultrametric dynamical days*, Santiago, Chile.
- ◇ March 2006: Bourbaki seminar on Berkovich theory.
- ◇ February 2005: *p-adic differential equations*, Mnster.

10 Publications

Survey papers

1. About Hrushovski and Loeser's work on the homotopy type of Berkovich spaces, notes of two talks given during the *Simons Symposium* d'avril 2013, St-John (Americal Virgin Islands), in *Non-Archimedean and Tropical geometry*, Simons Symposia, Springer (2016).
2. tale cohomology of schemes and analytic spaces, *Berkovich spaces and applications*, 67118, Lecture Notes in Math. **2119**, Springer, Cham, 2015 (notes of the mini-course I gave during the summer school on Berkovich spaces in Pairs, in July 2010).
3. Les espaces de Berkovich sont modrs, (d'aprs E. Hrushovski et F. Loeser), expos numro **1056** du sminaire Bourbaki (juin 2012), in *Astrisque* **352** (2013),459-507.
4. Gomtrie analytique p -adique : la thorie de Berkovich, *Gaz. Math.* **111** (2007), 1227.
5. Espaces analytiques p -adiques au sens de Berkovich, expos numro **958** du sminaire Bourbaki (mars 2006), in *Astrisque* **311** (2007) 137-176.

Research paper, published or to be published

- 6.** Families of Berkovich spaces (272 pages), to appear as a volume in the *Astisque* collection.
