[126] CANNARSA P. & FRANKOWSKA H. (2018) Value function, relaxation, and transvers-

with control and initial-final states constraints, SIAM J. Control Optim., 56, 1823–1855

conditions for infinite dimensional state constrained control problems, J. of Diff. Eqs., 264,
7294–7327

for a strong local minimum in a problem with state and general control constraints, SIAM
J. Control Optim., 56, 2353–2376

state constrained trajectories of infinite dimensional differential inclusions, ESAIM COCV,
Published online DOI 10.1051/cocv/2017032

for a strong local minimum in optimal control with general control constraints, Applied
Mathematics and Optimization, published online, DOI: https://doi.org/10.1007/s00245-
017-9461-x

[133] FRANKOWSKA H. & HAIDAR I. (2018) A relaxation result for state con-
strained delay differential inclusions, IEEE Transactions on Automatic Control, 63

finite horizon optimal control problems with state constraints, Mathematical Control and
Related Fields (MCRF), DOI: 10.3934/mcrf.2018022

for local minimizers of stochastic optimal control problems with state constraints, in press,

[136] BUCKDAHN R., FRANKOWSKA H. & QUINCAMPOIX M. (in revision) Viability of
an open set for stochastic control systems, in revision, Stochastic Processes and their
Applications

[137] FRANKOWSKA H. & SAGARA N. (submitted) Value functions and optimality conditions
for nonconvex variational problems with an infinite horizon in Banach spaces, Economic

[138] BASCO V. & FRANKOWSKA H. (submitted) Lipschitz continuity of the value function
for the infinite horizon optimal control problem under state constraints

9
[139] BASCO V. & FRANKOWSKA H. (submitted) *Hamilton-Jacobi-Bellman equations with time-measurable data and infinite horizon*

[140] FRANKOWSKA H. (submitted on invitation of EiC) *Infinite horizon optimal control for non-convex problems under state constraints*, Advances in Mathematical Economics

[141] BASCO V., CANNARSA P. & FRANKOWSKA H. (submitted) *Semiconcavity results and sensitivity relations for the sub-Riemannian distance*
